Product ID: 71202

Graham Webb Velvet Soft Softening Conditioner is the third step in Graham Webb's new softening technology. Softening Conditioner helps lock in smoothness and shine, leaving coarse, dry hair twice as soft without buildup. Contains Thermacore Complex, Graham Webb's heat-activated technology that turns heat from styling tools into a beneficial conditioning treatment.

Graham Webb Velvet Soft will make hair look and feel like a soft, velvety, flowing curtain. The product range "preps" the canvas of the hair to make it more receptive to styling and enables it to hold any style longer. Shine, elasticity, and flexibility are increased without chemically altering the hair's composition.

Velvet Soft by Graham Webb has been clinically proven to leave hair twice as soft without build-up versus using a non-conditioning shampoo alone!
